QUANTUM TECHNOLOGIES

Lab Assignment

Execution of Six Algorithms using Simulation and IBM Quantum Environment

Name: Mitrajit Ghorui

Roll No.: [REDACTED]

Date of Submission: **8th April 2026**

Contents

1 Deutsch Algorithm **1**
- 1.1 Simulated Output . . . 1
- 1.2 IBM Quantum Environment Output . . . 1

2 Deutsch-Jozsa Algorithm **2**
- 2.1 Simulated Output . . . 2
- 2.2 IBM Quantum Environment Output . . . 2

3 Bernstein-Vazirani Algorithm **3**
- 3.1 Simulated Output . . . 3
- 3.2 IBM Quantum Environment Output . . . 3

4 Simon's Periodicity Algorithm **4**
- 4.1 Simulated Output . . . 4
- 4.2 IBM Quantum Environment Output . . . 5
- 4.3 Eq Solving Classical . . . 5

5 Grover's (Search) Algorithm **6**
- 5.1 Simulated Output . . . 6
- 5.2 Simulated Output Histogram . . . 6
- 5.3 IBM Quantum Environment Output . . . 7
- 5.4 IBM Quantum Environment Output Histogram . . . 7

6 Shor's (Prime Factors) Algorithm **8**
- 6.1 Generation Output . . . 8
- 6.2 Simulated Output . . . 9
- 6.3 Simulated Output Histogram . . . 10
- 6.4 IBM Quantum Environment Output . . . 11
- 6.5 IBM Quantum Environment Output Histogram . . . 12

1 Deutsch Algorithm

1.1 Simulated Output

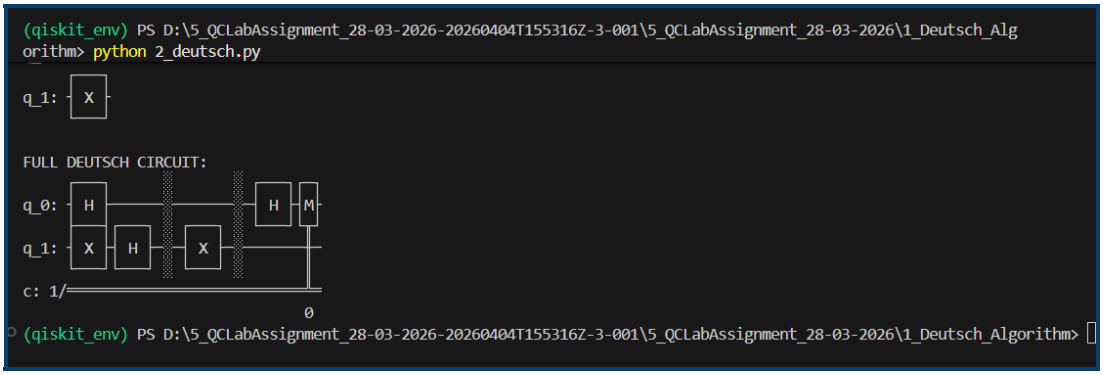

Figure 1: Output of Deutsch Algorithm on Local Simulation

1.2 IBM Quantum Environment Output

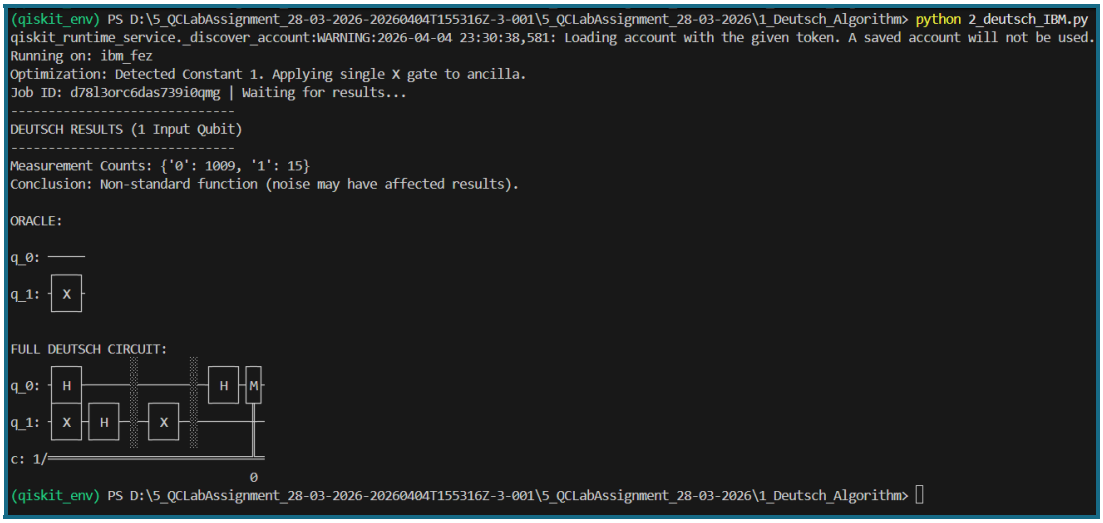

Figure 2: Output of Deutsch Algorithm on IBM Quantum Environment

2 Deutsch-Jozsa Algorithm

2.1 Simulated Output

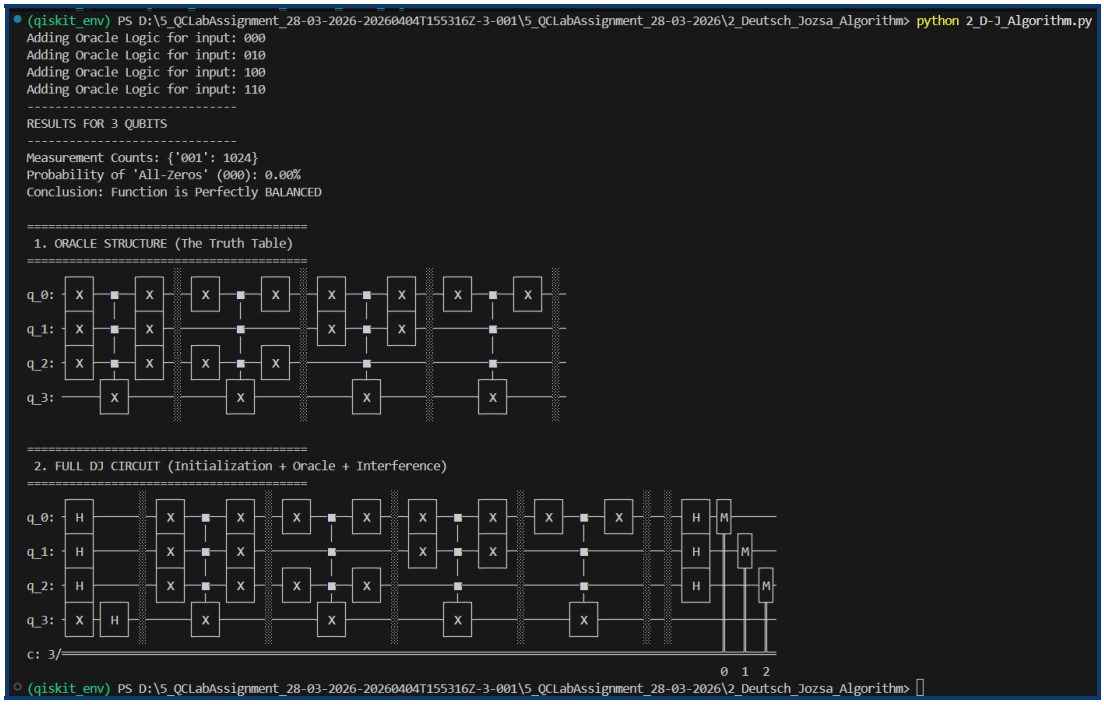

Figure 3: Output of Deutsch-Jozsa Algorithm on Local Simulation

2.2 IBM Quantum Environment Output

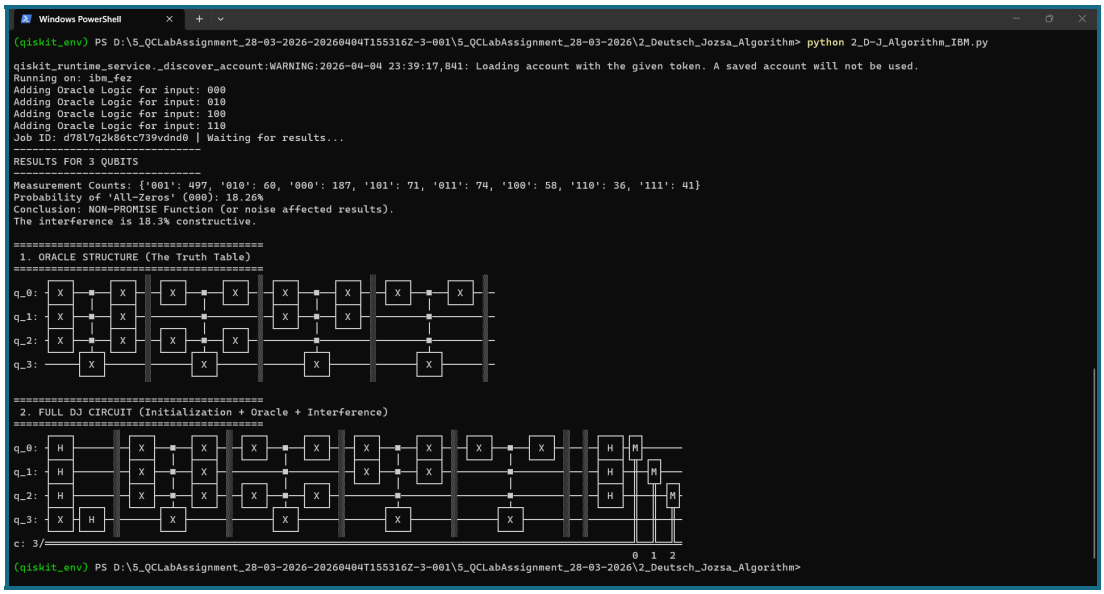

Figure 4: Output of Deutsch-Jozsa Algorithm on IBM Quantum Environment

3 Bernstein-Vazirani Algorithm

3.1 Simulated Output

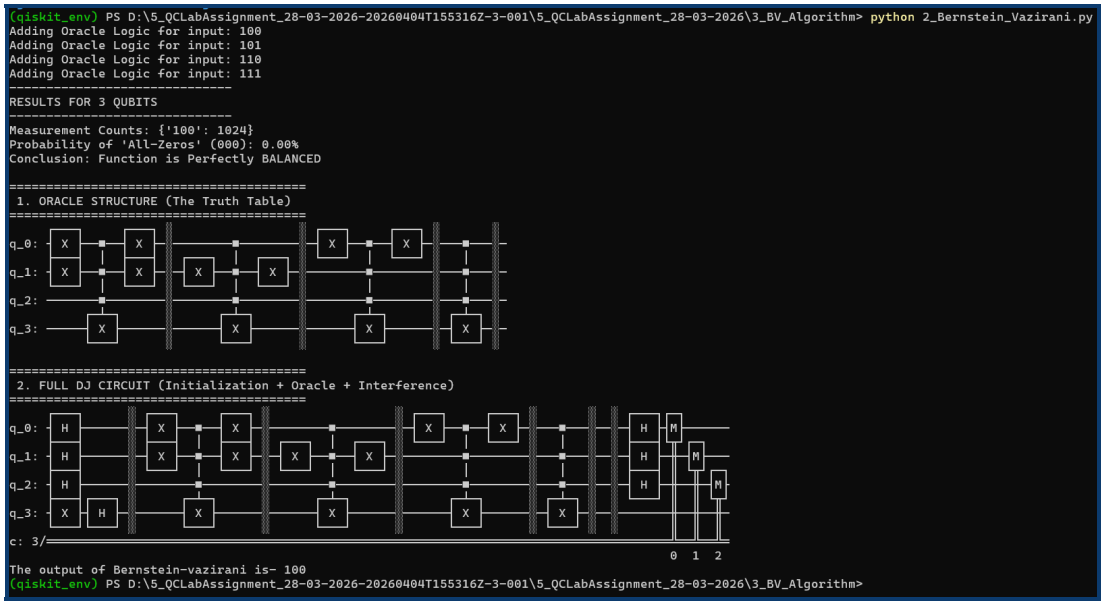

Figure 5: Output of Bernstein-Vazirani Algorithm on Local Simulation

3.2 IBM Quantum Environment Output

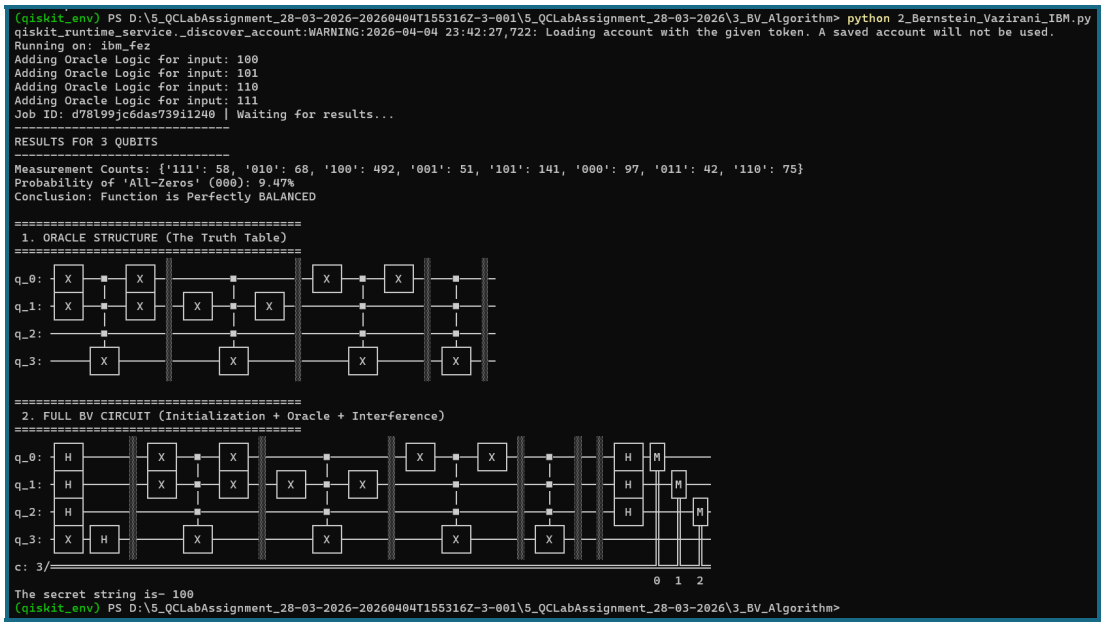

Figure 6: Output of Bernstein-Vazirani Algorithm on IBM Quantum Environment

4 Simon's Periodicity Algorithm

4.1 Simulated Output

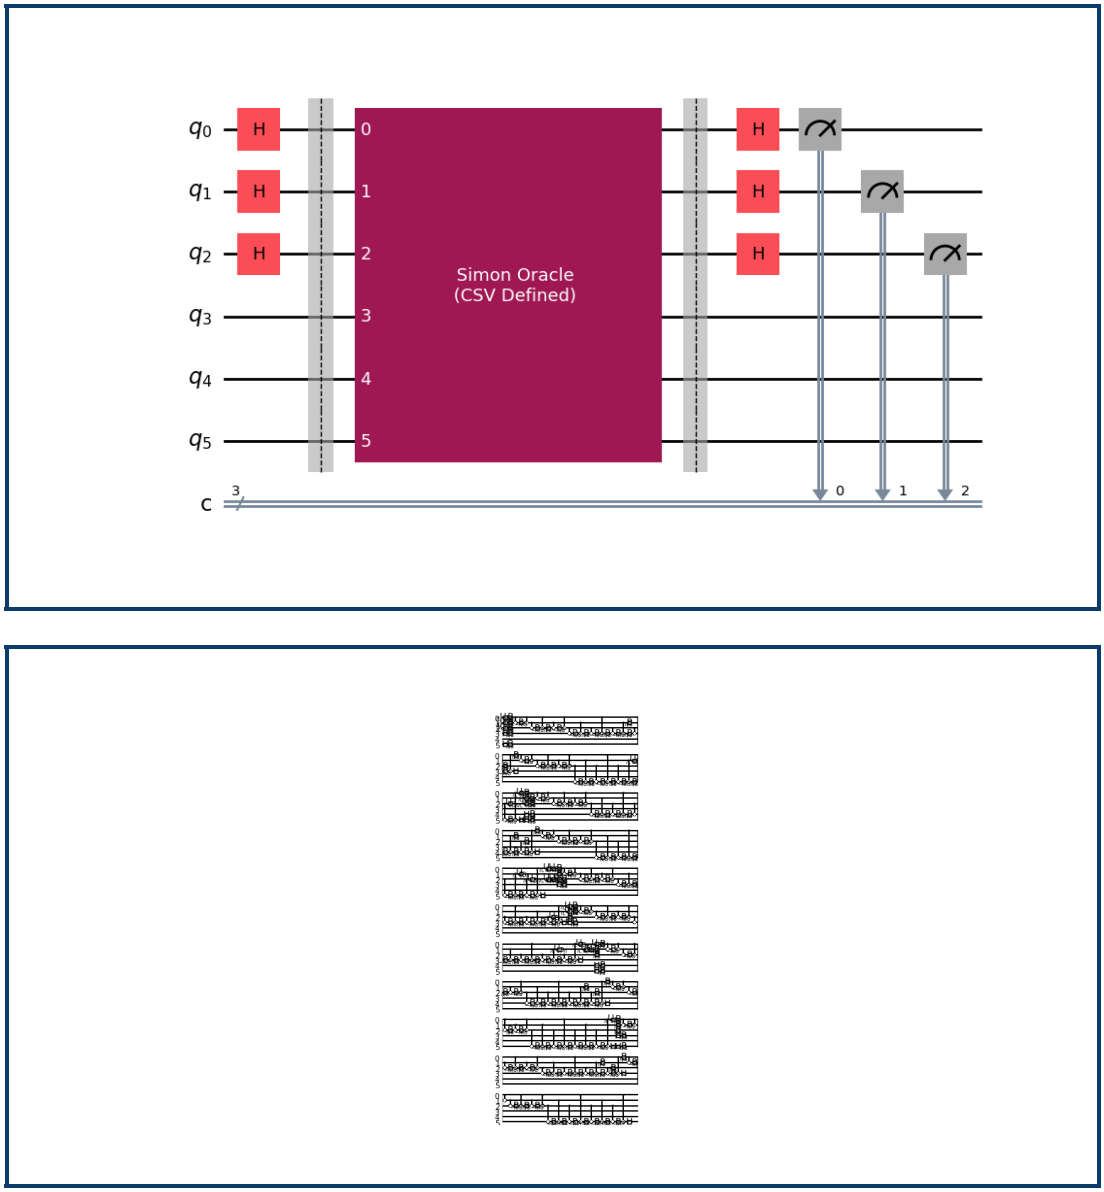

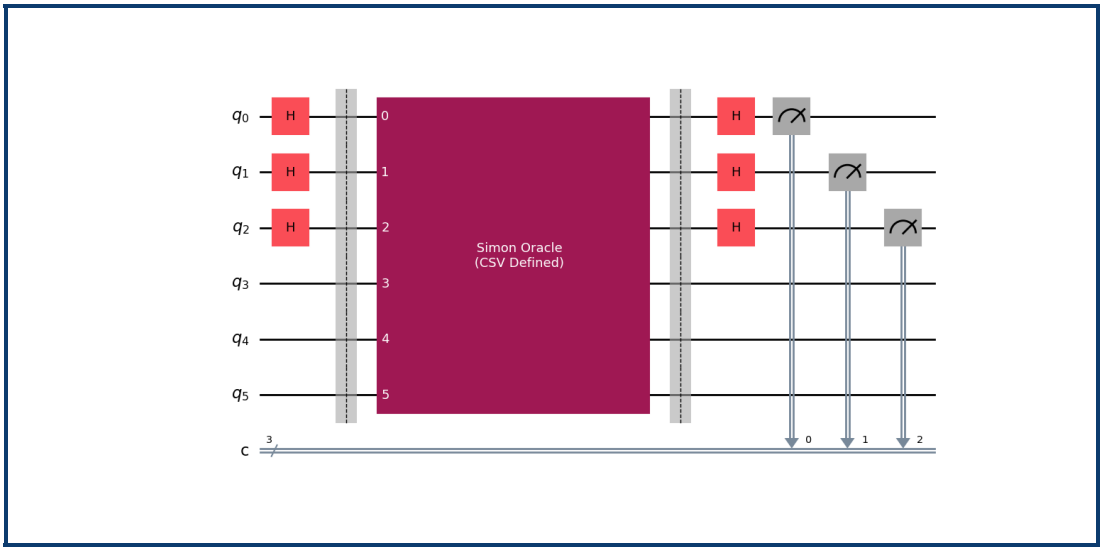

Figure 7: Output of Simon's Periodicity Algorithm on Local Simulation

4.2 IBM Quantum Environment Output

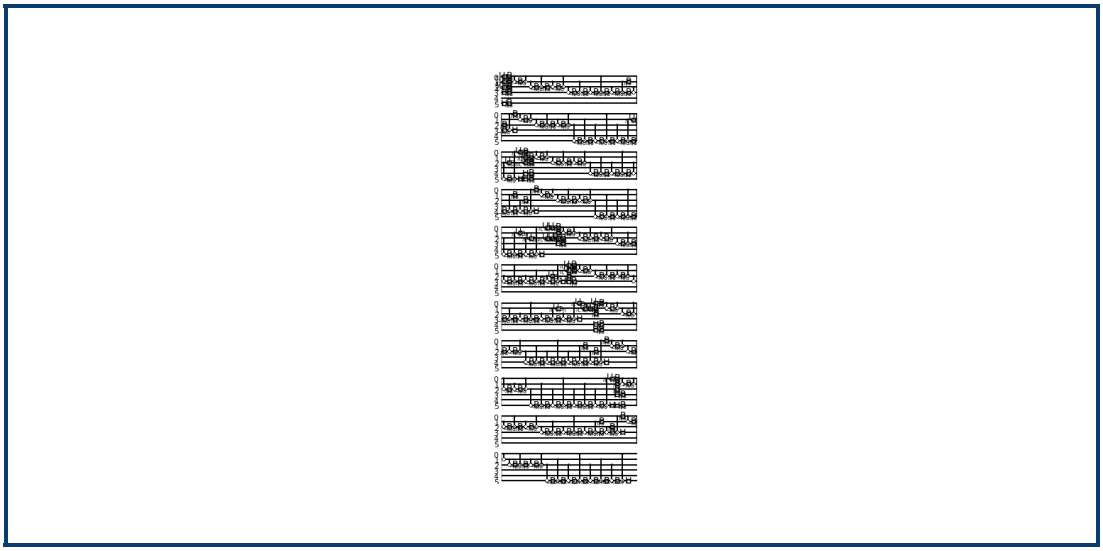

Figure 8: Output of Simon's Periodicity Algorithm on IBM Quantum Environment

4.3 Eq Solving Classical

```
(qiskit_env) PS D:\5_QCLabAssignment_28-03-2026-20260404T155316Z-3-001\5_QCLabAssignment_28-03-2026\4_Simons_Algorithm> python 3_eq_solving_classical.py
Solving for n=3...
Secret string is 000 (or insufficient equations).
(qiskit_env) PS D:\5_QCLabAssignment_28-03-2026-20260404T155316Z-3-001\5_QCLabAssignment_28-03-2026\4_Simons_Algorithm>
```

Figure 9: Output of eq solving python file

5 Grover's (Search) Algorithm

5.1 Simulated Output

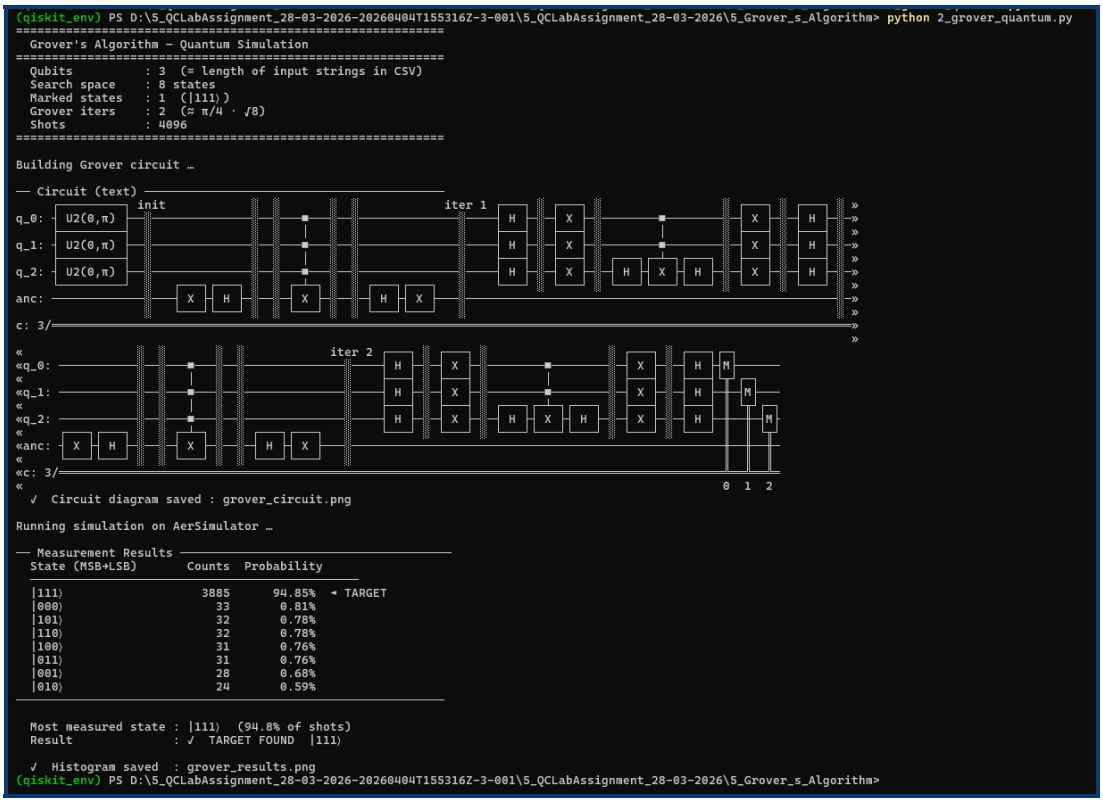

Figure 10: Output of Grover's Algorithm on Local Simulation

5.2 Simulated Output Histogram

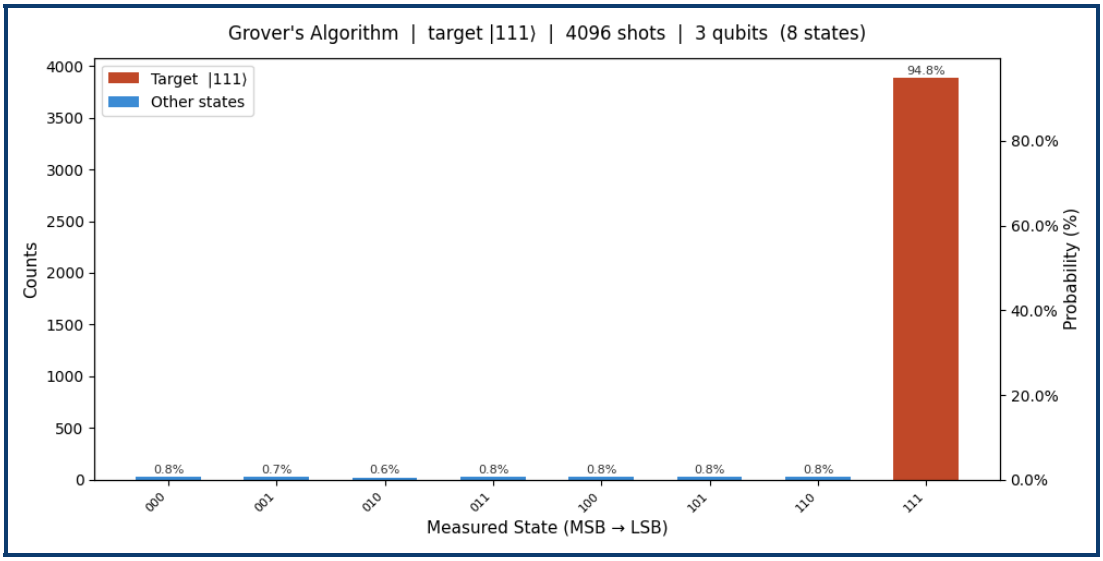

Figure 11: Histogram Output of Grover's Algorithm on Local Simulation

5.3 IBM Quantum Environment Output

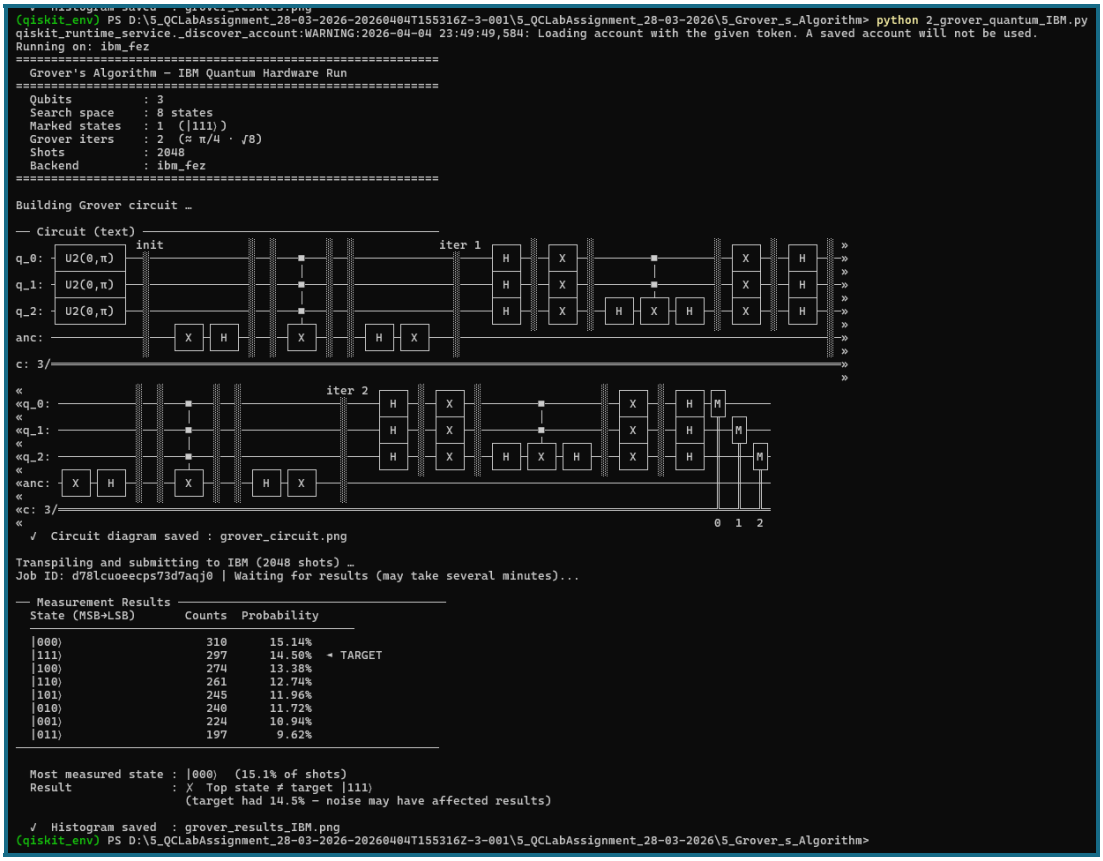

Figure 12: Output of Grover's Algorithm on IBM Quantum Environment

5.4 IBM Quantum Environment Output Histogram

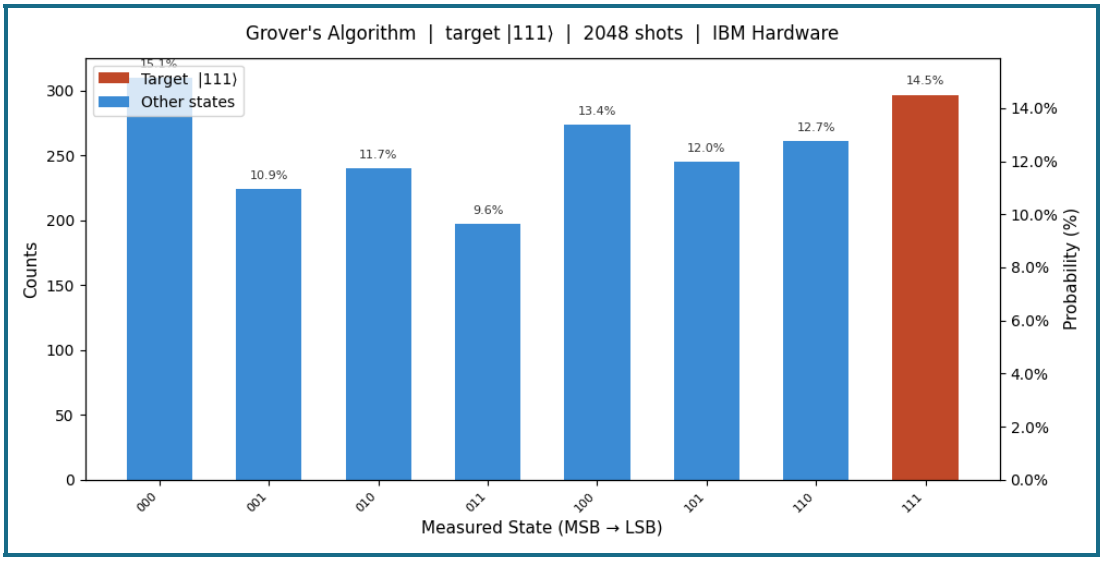

Figure 13: Histogram Output of Grover's Algorithm on IBM Quantum Environment

6 Shor's (Prime Factors) Algorithm

6.1 Generation Output

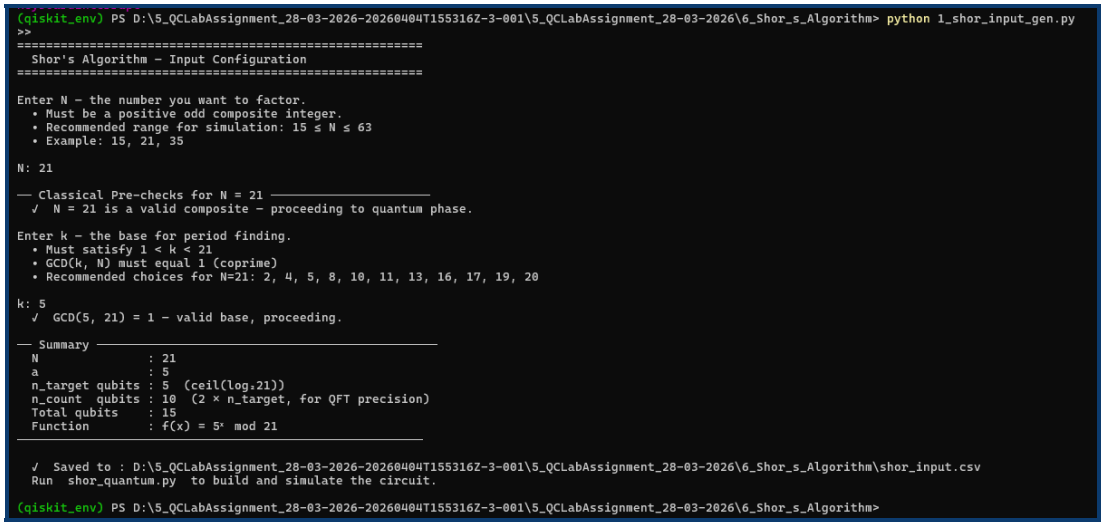

Figure 14: Screenshot Of Shor's input gen file

6.2 Simulated Output

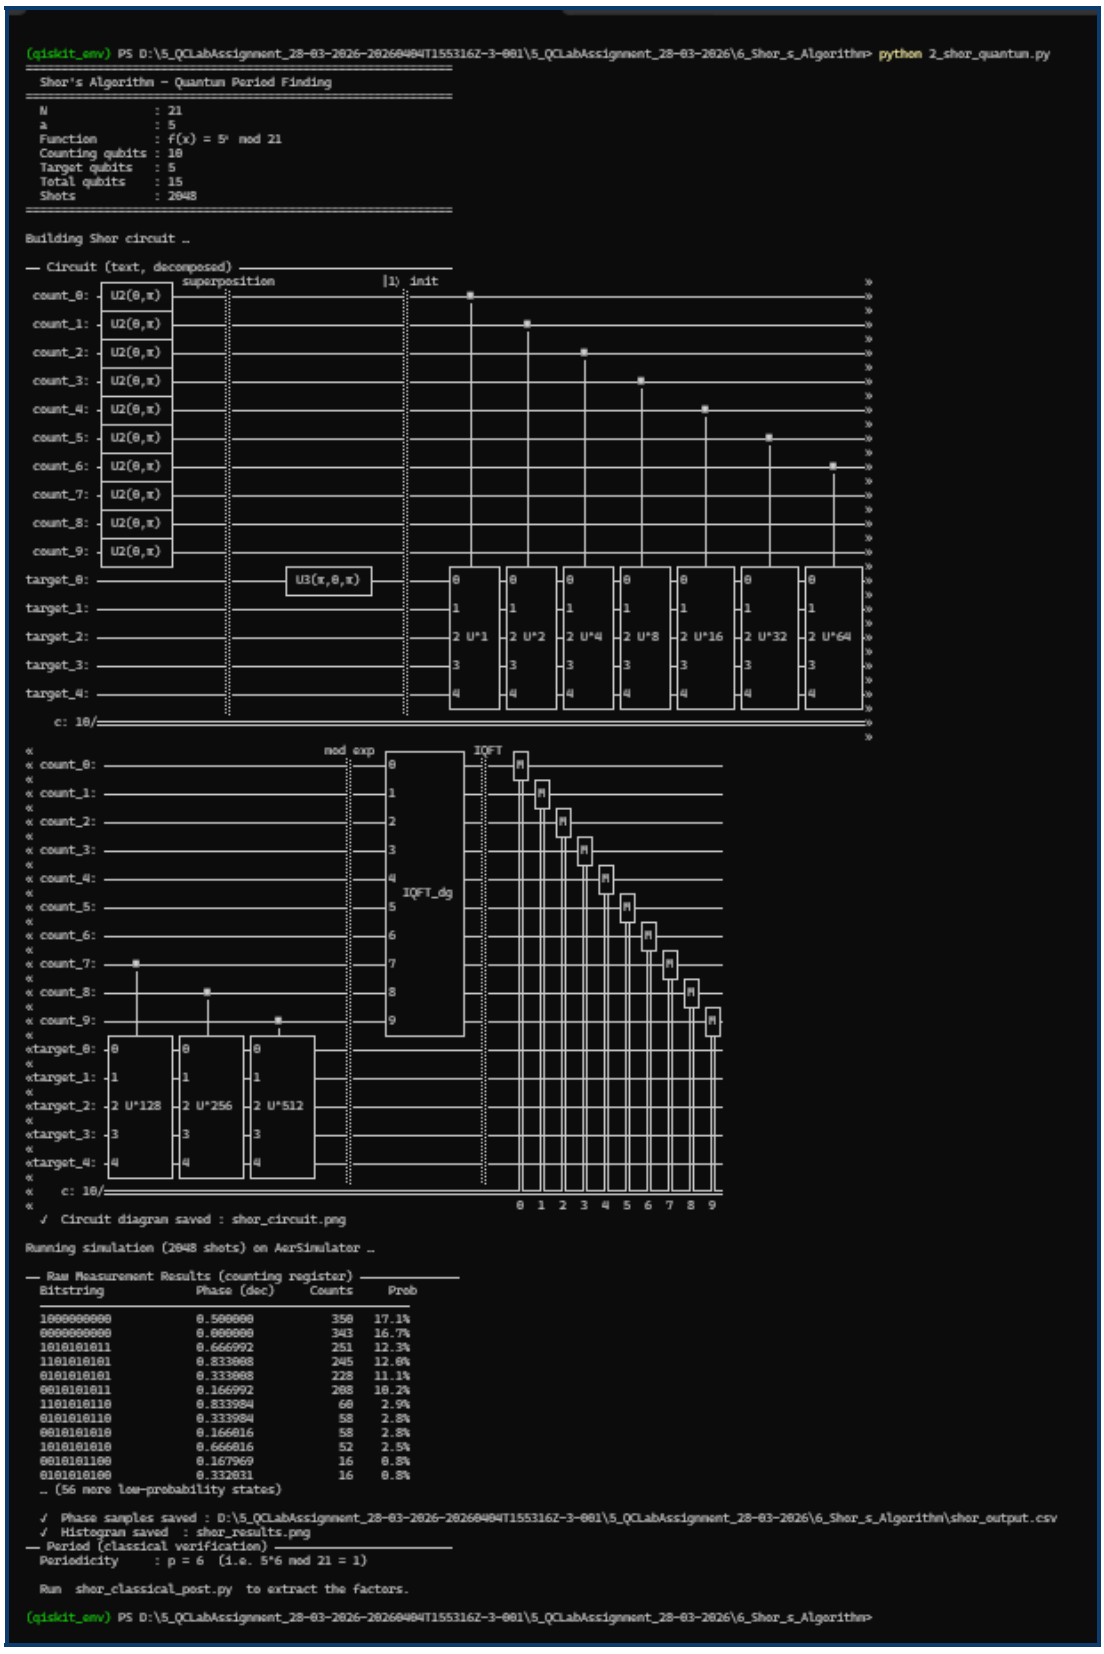

Figure 15: Output of Shor's Algorithm on Local Simulation

6.3 Simulated Output Histogram

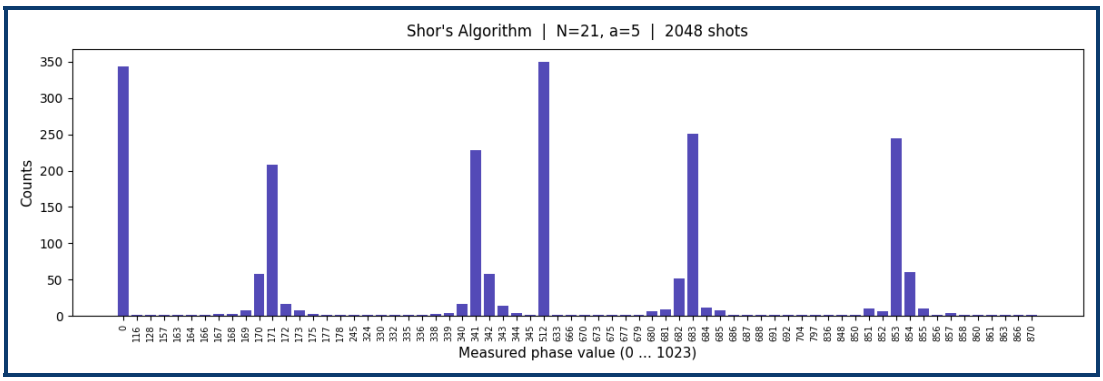

Figure 16: Histogram Output of Shor's Algorithm on Local Simulation

6.4 IBM Quantum Environment Output

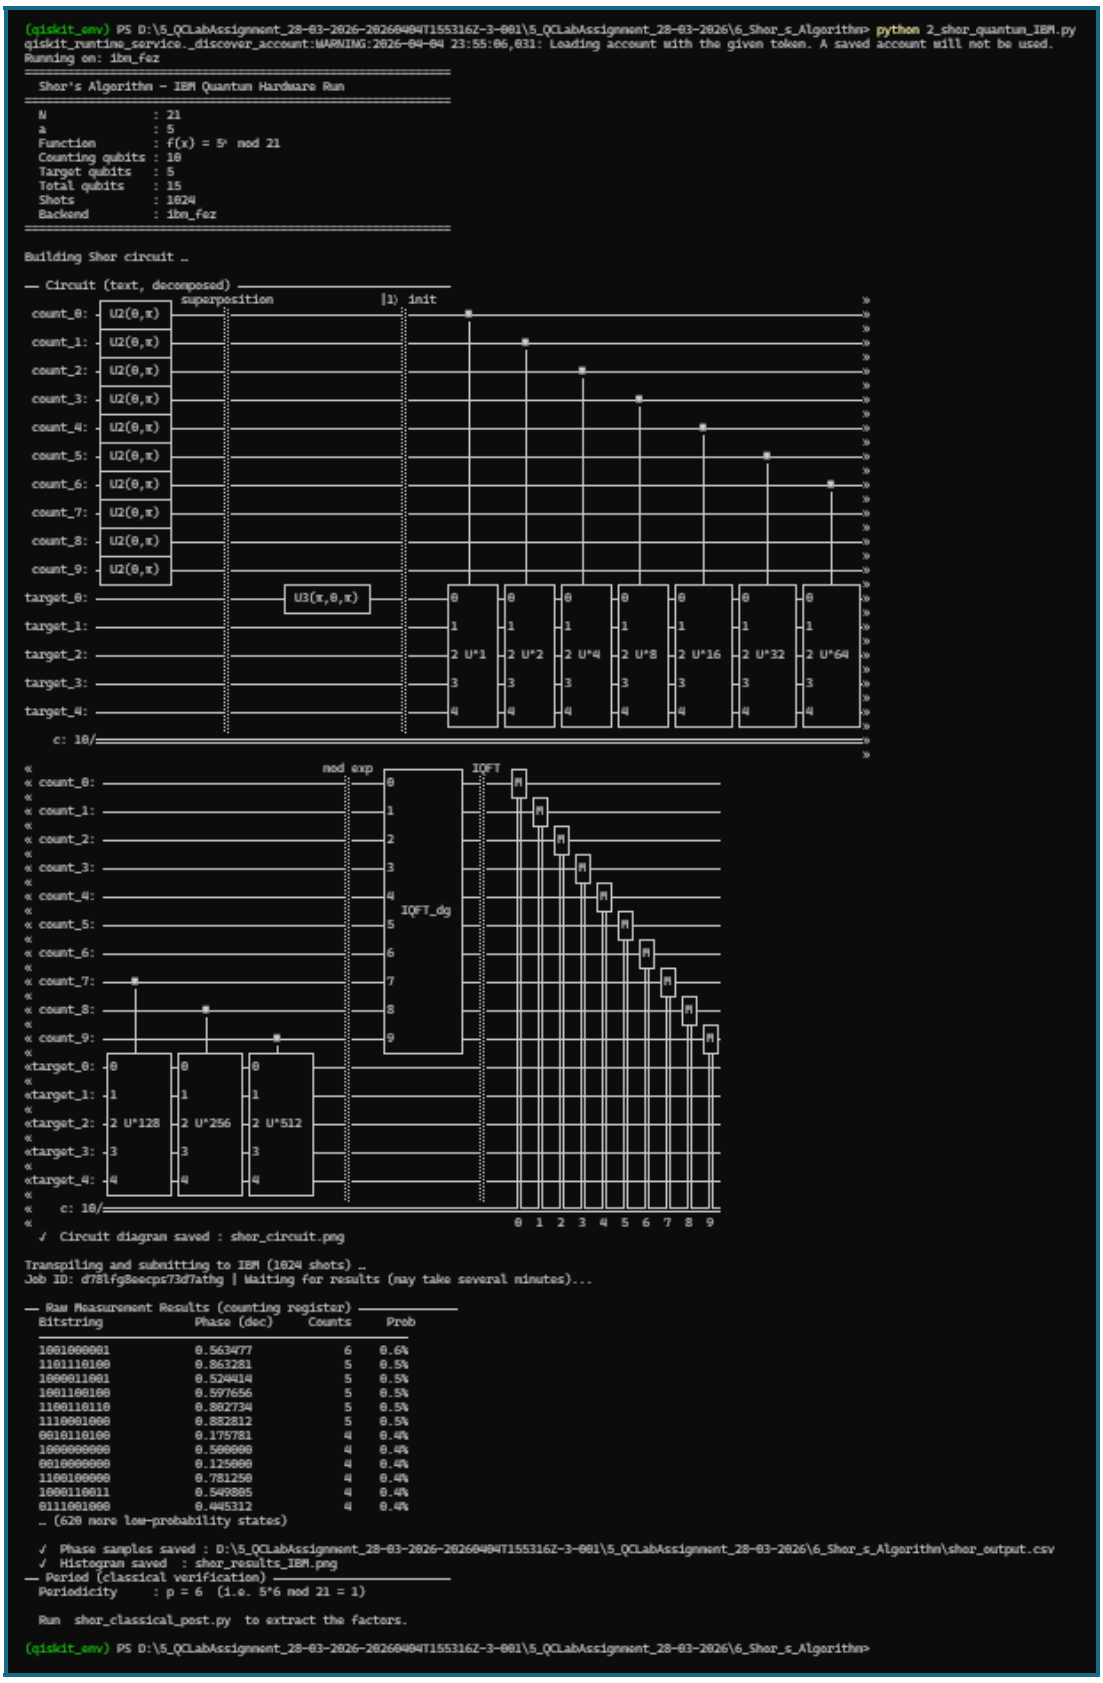

Figure 17: Output of Shor's Algorithm on IBM Quantum Environment

6.5 IBM Quantum Environment Output Histogram

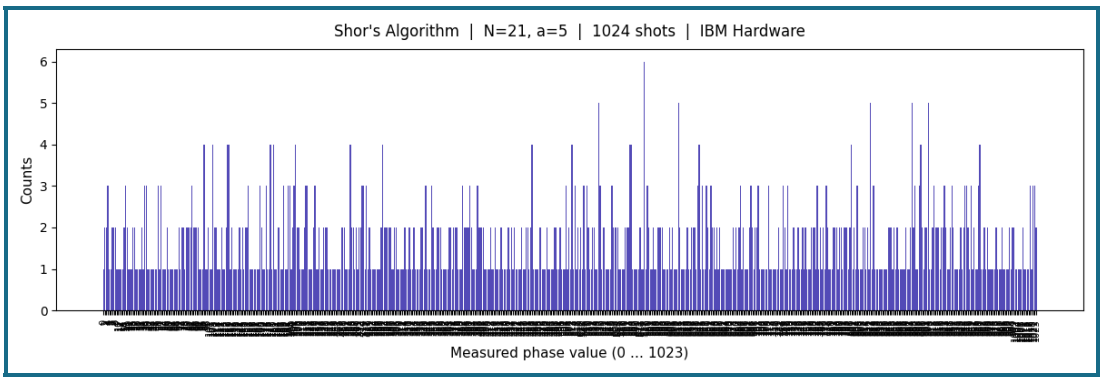

Figure 18: Histogram Output of Shor's Algorithm on IBM Quantum Environment
